DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Shuhart, Jr. et al. (5,065,251).

Regarding claim 1, Shuhart discloses a method and apparatus for graphically marking an audiovisual recording to indicate occurrence of an official's whistle signal showing an audio interface means 50 and filter/discriminator 60 for detecting an occurrence of a whistle blowing event and for marking the video signal with a marker (col. 5, lines 25-68), which clearly meets the marking step as claimed.

Allowable Subject Matter

3. Claims 2-34 are allowed.

Response to Arguments

4. Applicant's arguments filed on 12/29/03 have been fully considered but they are not persuasive.

Regarding applicant's argument that Shuhart's "marker" is not "carried with said first signal during the processing which said first signal is to experience", and Shuhart's

Art Unit: 2614

invention is merely one which marks the video with the occurrence of an audible event, but does not provide for or suggest the subsequent use of that marking to "facilitate later determination of the timing" of the audio and video as called for in claim 1, the examiner disagrees. In column 9, lines 16-21, Shuhart states that by encoding a marker 116,118 responsive to the triggering output and impressing the marker on the audiovisual record 112...the signal at the event is enhanced in the audiovisual record readily compared to timing of the signal at the event. This statement clearly meets the limitation as claimed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
